2018 Version Software Licensing Guide

Licensing the 2018 version of Bradley software is basically the same as the 2016 programs. This guide will step you through this easy to follow process. Remember, you can always call Bradley Software for FREE Technical support at (913)491-4476 or send email to techsupport@bradleysoftware.com

Before you begin make sure that the TRIAL program is loaded on your computer. The registration code will enable the software to work only on the specific machine it is designated for.

Step 1
Run the Program and get to the Welcome Screen

NOTE:
The grey text area is pre-filled and should match the registration code you received in an email. If it does not, then contact Bradley Software.

Click OK.

If the license code is valid the following window appears.

Your program is now fully licensed!
Transfer Overview

A license is like a token. Once you have one you can move it from one computer to another. But it can only exist on one computer at any given time.

This guide shows you how to transfer the license that exists on one machine (the Source), to another machine (the Target).

Basic Overview

(See page 3 for detailed instructions)

Step 1
Install the TRIAL program on the TARGET - get the license code (if needed)

Step 2
Run the REGISTRATION DASHBOARD program on the SOURCE - type in the license code from the TARGET (if needed). You will receive a registration code. The SOURCE is now converted back to a TRIAL program.

Step 3
Type in the registration code from the SOURCE. The TARGET is now licensed for full use!
