

BRADLEY SOFTWARE

child support calculator & software since 1992

## 2019 Version Software Licensing Guide

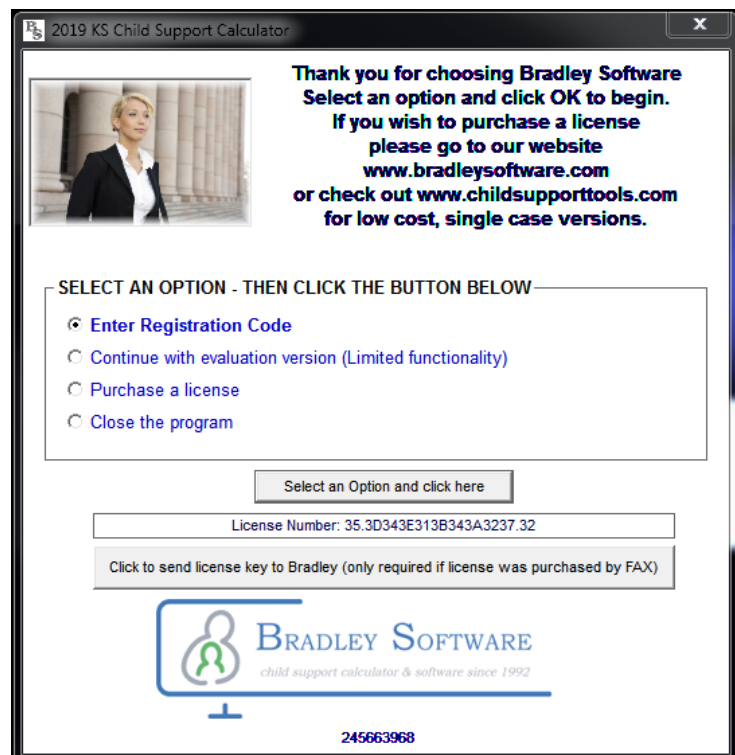

Licensing the 2019 version of Bradley software is basically the same as the 2018 programs. This guide will step you through this easy to follow process. Remember, you can always call Bradley Software for FREE Technical support at (913)491-4476 or send email to [techsupport@bradleysoftware.com](mailto:techsupport@bradleysoftware.com)

Before you begin make sure that the TRIAL program is loaded on your computer. The registration code will enable the software to work only on the specific machine it is designated for.

Figure 1

### Step 1

Run the Program and get to the Welcome Screen

# BRADLEY SOFTWARE

## 2019 Version Software Licensing Guide

Initial Licensing – if you purchased from our website

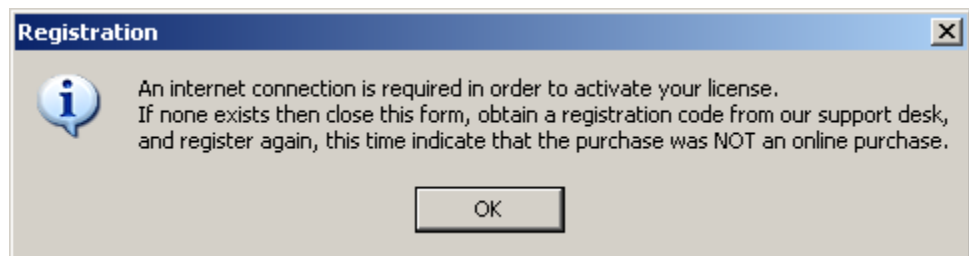

### Step 2

You clicked YES

### Step 3

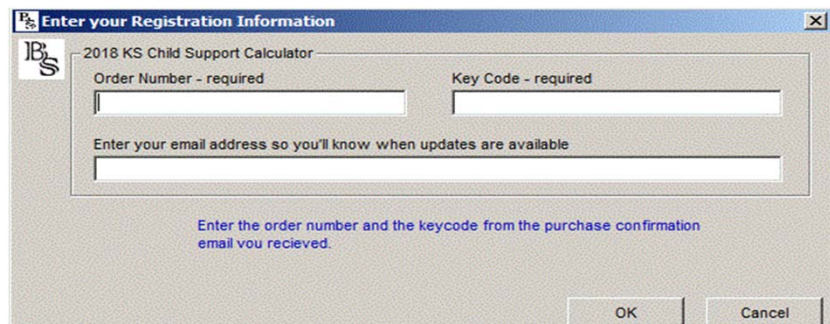

You MUST have an active Internet connection to register using this method. You may have to turn off your firewall.

### Step 4

Enter the Order number and keycode from the order confirmation email you received.

Click OK.

If the codes are valid the following window appears.

Your program is now fully licensed!

## 2019 Version Software Licensing Guide

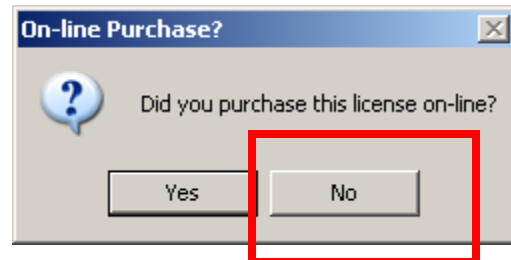

### Initial Licensing – If you purchased via FAX

#### Step 2

You clicked NO

#### Step 3

Type the registration code into the areas supplied.

#### NOTE:

The grey text area is pre-filled and should match the registration code you received in an email. If it does not, then contact Bradley Software.

Click OK.

If the license code is valid the following window appears.

Your program is now fully licensed!

## Transfer Overview

A license is like a token. Once you have one you can move it from one computer to another. But it can only exist on one computer at any given time.

This guide shows you how to transfer the license that exists on one machine (the Source), to another machine (the Target).

### Basic Overview

(See page 3 for detailed instructions)

#### Step 1

Install the TRIAL program on the **TARGET** - get the license code (if needed)

#### Step 2

Run the program on the **SOURCE** - type in the license code from the **TARGET (if needed)**.

You will receive a registration code.

The **SOURCE** is now converted back to a TRIAL program.

#### Step 3

Type in the registration code from the **SOURCE**. The **TARGET** is now licensed for full use!

Go to page 6

## Transfer – First Steps

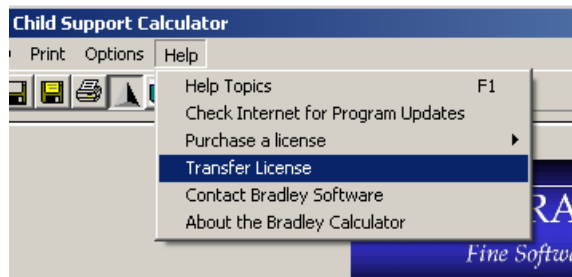

**SOURCE** computer  
(The one you are moving the software from)

**TARGET** computer  
(the one you are moving the software to)

### Step 2

Run the licensed program. Click on HELP then click on TRANSFER LICENSE

A new window appears.

Click YES

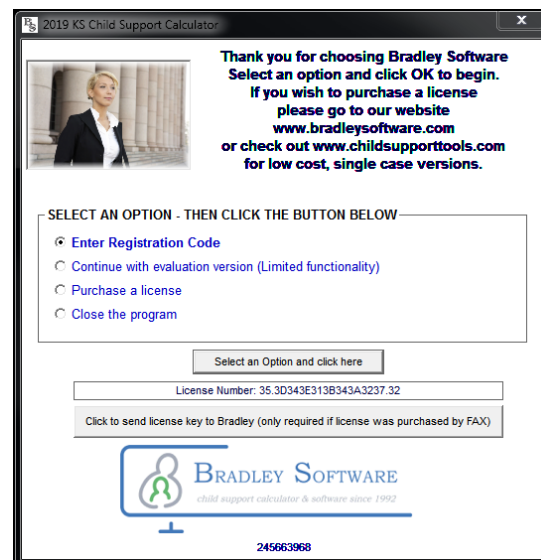

**The next window will appear. Depending on how it looks follow these instructions**

If it looks like this then contact Bradley Software

### Step 1

Install the Trial program in the PC that you want to move the license to.

Leave it open to this screen  
Go to Step 2 (shown on left)

If it looks like this then go to page 7

**SOURCE** computer  
(The one you are moving the software from)

**TARGET** computer  
(the one you are moving the software to)

### Step 3

Enter the Order Number and Key Code from the SOURCE computer.

Click OK

**You are now done  
and the new  
computer is  
licensed.**
